# Company

## Presentation

Since 1978, EUROSTEAM company, based near Rouen, develops and produces cleaning machines for professionals.

EUROSTEAM has its own plastic unit that enables to produce high density polyethylene machines, very robust, shock and corrosion resistant.

EUROSTEAM offers a large product range adapted to all floor types : marble, tiled floor, PVC, carpet but also for the cleaning of armchairs and draperies.

EUROSTEAM proposes innovative professional machines for standard or specific uses.

EUROSTEAM manufactures standard products to its own brand but also customized products (other color or other specification) and private label products for big international brands.

EUROSTEAM sells its production through a distribution network in France and in foreign countries (Europe, Africa, Middle East, India, China)

Innovation, quality, reactivity, customer focus are EUROSTEAM core values.

# Company History

1978

## Company creation

M. SANSON develops professional machines based on :  
Polyethylene made by roto moulding  
Integrated R&D and manufacturing  
Customized manufacturing  
Specific markets

2005

## Acquisition by Mr JULIN

Mr JULIN makes the production industrial :  
New production site in Le Houlme (near Rouen) with 3500 m<sup>2</sup> space  
New roto moulding machine in order to increase the production capacity

## Organization chart

# Products

## Vacuum cleaners

A complete and evolving range of canister, cyclone and backpack vacuums...

- Cable or battery
- With or without bag
- Tank capacity: from 4.5 to 60 litres
- Power : 400 to 1500 Watts
- Suction diameter: 32 or 38 mm
- Vacuum: 1500 to 3000 mm
- Air flow : 43 to 57 L/s
- Water level detection by float or electronic probe

### Applications

Traditional suction  
Fine dust  
Confined spaces  
Water damage

# Products

## Scrubbers dryer

A wide range of scrubbers (carpet, mixed, hard floors) to meet different needs in terms of use (carpet, hard floors, mixed) and brush size.

- Capacity: from 12 to 115 L
- Width: from 32 to 75 mm
- Performance: from 1050 to 3750 m<sup>2</sup>/h
- Autonomy : 1.30 to 3.45 H

### Applications

Triple function (injection – brushing – suction)  
Carpets or hard floors

# Products

## Mini scrubbers

A complete range of single brushes for brushing, stripping and polishing  
To be coupled with a wide range of brushes and pads.

- Standard or mini sizes
- Power : 60 to 1800 Watts
- Rotation speed : 150 to 1000 rpm
- Tank capacity : 2,5 to 10 L

### Applications

Spraying and brushing  
Routine cleaning of hard floors and carpets

# Products

## Extractors

Injectors - extractors designed and created to meet the market's needs as closely as possible (box, trolley, dorsal)

- Capacities: from 5 to 53 litres
- Pressure: from 2 to 5 bars
- Spray rate: 1.5 litres / min
- Power: from 1100 to 4100 Watts

### Applications

Cleaning carpets, rugs, armchairs, cars, drapes, hard floors

# Products

## Sprayers

A range of different types of sprayers (box, cart or backpack)

- Electric or battery powered
- Capacity: 5 to 140 litres
- Pressure: 2 to 5 bars
- Flow rate: 0.4 to 1.4 litres /min
- Jet: flat or conical

### Applications

Horticulture, rodent control, roof de-mossing

# Products

## Multiservices

Complete cleaning machines (spraying, brushing, vacuuming, blowing), compact, handy, practical.

- Mini single brush included
- Capacity: 14, 24 and 53 L
- Pressure: 8 to 15 bars
- Spray rate: 10 L / min
- Power : 1000 to 2450 Watts

### Applications

« No touch » cleaning of sanitary facilities

# Products

## Steam extractors

Multi-purpose injection or injection-extraction machines for cleaning, disinfecting and degreasing using steam

- With or without suction
- Capacity: from 7.5 to 20 litres
- Pressure : from 0,3 to 8 Bars
- Flow rate : 90 grams / mn
- Power : 3000 to 4000 W

### Applications

Cleaning of all surfaces,  
health and food  
preparation  
Renovation,  
decontamination,  
degreasing

# Products

## Disinfection

The flagship product of the range : The Mist Generator

- Power (W) 1000
- Average liquid flow rate (L/H) 1.2
- Timer (mn) 0 to 30
- Empty weight (Kg) 6.86
- Empty weight (Kg) 6.86
- Power supply 230 V - 50/60 Hz - 5 A
- Cable length (M) 2.20

### Applications

Disinfection of rooms up to 500m<sup>2</sup> in 30 minutes
